What is somebody gave a war and nobody came? (60's slogan)

War crime? When isn't war a crime? But isn't there a terrible logic to defending yourselves?

Been living with a full grown lady for 39 years. She's quite different than me ~ example of this morning got a little toothpaste on her shirt before walking with her friend she, and changed...couldn't even see the spot♥♥

She's into pickle ball which is fun but can't play much. If anybody asks I'll plead back pain not a sore back... too much like Marshall in Hang Em High.

Meanwhile back at the ranch, hope we're done dealing with those batstards in the attic 🦇😊.

Yes I've asked Jesus to be my savior, I believe that somehow he rose again

and I've been baptized in water but many will say my case is hopeless because I'm not so sure about the Niceness and Apostles creeds. How were they arrived at, and did emperor Constantine have anything to do with it? Also wondering about the virgin birth Noah's ark, Samson and other things in the Bible which I am told are non-negotiable. Seems to me that those who believe in the hysterical Jesus over the historical Jesus do no better and possibly worse at living the life he called for, than those who believe in the historical Jesus or no one at all what does that mean? Regarding the religionists premise that we are all sinners and that they may not be better but are better off, I agree with the former and wonder about the latter.

Women say they dress for each other and I believe them but they're mostly turning us on, and maybe each other a bit too... anyway it's a competitive world. # Could you say the same thing about men lifting weights?

If the ladies are hard wired to badger us, what if anything are we wired to do in return?

“Pray for the peace of Jerusalem”, and Black Lives Matter...one’s a Bible verse the other a slogan. #Expansive?

“Pray for the peace of Jerusalem; May those who love you be secure” ... Psalm 122:6 NIV

“A young mother was fatally shot earlier this month in Indiana and may have been targeted for saying “all lives matter,” the 24-year-old’s family said Sunday... Jessica Doty Whitaker was fatally shot earlier this month following an alleged argument between her group and a group of Black Lives Matter supporters” ... New York Daily News, Jul 13, 2020.

“The problem with

the world is that

the intelligent people

are full of doubts, while

the stupid ones are

full of confidence” ... Charles Bukowski. # Hmm... just don’t overestimate ourselves.

You’re the smart ones ~ you’ve got the scores, you’ve got the grades but we have rights too and we’re not convinced of your wisdom only of your intelligence... but I do agree with your statement!

In Russia Putin goes through the motions of getting the Dumas approval before signing declarations that lead to war and he’s been in power for many years. US presidents are currently limited to two terms and in theory have to declare war via Congress but can also do end-runs to start a conflict.

As per “how slow can you go”, moving as sloth like as possible in the Brooklyn Airbnb’s ginormas bathtub. Hear peeps walking nervously? around upstairs ~ sorry about running the hot water bill

but sure like a good soak 🛁.

Different values ~ some don't eat cows, some won't eat pork, we don't like bugs, and some eat each other or find it acceptable to harvest organs by force... figure it out □.

I doubt any religion or ideology provides a "perfect" moral compass, but when peeps from one that says 'the end doesn't justify the means' face peeps who've been taught the opposite, they're probably in trouble.

I'd have more confidence in our leaders, if so many of them weren't ideologues, and if those who weren't, weren't serving under the former. This seems true of leaders everywhere...

Jesus... he was something else. At times hysterical at times historical. All good.

Luke 12:13-15 ... "Teacher, tell my brother to divide the inheritance with me."

14 But He said to him, "Man, who made Me a judge or an arbitrator over you?" 15 And He said to them, "Take heed and beware of [a] covetousness, for one's life does not consist in the abundance of the things he possesses."

Was Jesus a radical Rabbi, similar in some respects to Lubavitcher Rebbe? (Discussed at Brooklyn Tabernacle,)

We have our differences but God how we overlap.

Conformity... be it church or the Hells Angels... it's expected. # Clap and keep opinions to yourself.

Luke 12:16-21 16 Then He spoke a parable to them, saying: "The ground of a certain rich man yielded plentifully. 17 And he thought within himself, saying, 'What shall I do, since I have no room to store my crops?' 18 So he said, 'I will do this: I will pull down my barns and build greater, and there I will store all my crops and my goods. 19 And I will say to my soul, "Soul, you have many goods laid up for many years; take your ease; eat, drink, and be

merry.”’ 20 But God said to him, ‘Fool! This night your soul will be required of you; then whose will those things be which you have provided?’

21 “So is he who lays up treasure for himself, and is not rich toward God.”

22 Then He said to His disciples, “Therefore I say to you, do not worry about your life, what you will eat; nor about the body, what you will put on. 23 Life is more than food, and the body is more than clothing.

vs

Alexander the Great; “Sex and sleep alone make me conscious that I am mortal.”

“The spirit is searching for what will make it happy” ... Jim Cymbala, Pastor of the Brooklyn Tabernacle

Pastors remind me of coaches... ‘do this, do that.’ Some are great, some are jerks but they’re mostly focused on ‘winning.’

Humans are social... does that mean herd animals!

Neck, scalp or other itch? Scratch twice and you might relieve it without releasing a histamine response.

Who would’ve been more likely to authorize use of nukes if they’d had em George Washington or Abe Blinken... easy come easy go

They blame us for the oppression of their ancestors, who will our descendants blame if they are oppressed by the peeps we give the farm to? Probably us.

Oh wait, by gones will be by gones and everyone will be treated fairly... right?

Well, let’s bungle in the jungle

Well, that’s all right by me, yes

Well, I'm a tiger when I want love
But I'm a snake if we disagree

The rivers are full of crocodile nasties
And he who made kittens put snakes in their grasp
He's a lover of life but a player of pawns
Yes, the King on His sunset lies waiting for dawn
To light up His Jungle as play is resumed
The monkeys seem willing to strike up the tune

Nuclear War Could Reverse Global

Warming

By Dean Praetorius (Huffington Post)

We 'saved millions of lives' by nuking Japan, now via nuclear war will someone save the planet?

Tesla trembles, Big Oil smiles.

We moeten ons niet al te veel zorgen maken over onze vrouwen die klagen, want blijkbaar is het de bedoeling dat het is ingebouwd 😊.

Be kind, be strong.

“Washington expressed aspiration that the federal government be based on freedom of conscience not simply religious tolerance. He would come to be the great champion of

religious freedom” ... George Washington and the Pursuit of Religious Freedom (‘George Washington’s Mount Vernon’ - YouTube channel).

George over Jimmy and Jesus over George.

Is it naïve to believe that when one turns YouTube on and the first row is recommended videos, that the algorithm’s not only offering what I’m interested in but also in what YouTube’s interested in us being interested in? #Same with Facebook.

“Extend the X axis, it’s the only way to solve the problem” ... Tom Kean, Bloomberg Anchor (Paraphrased)

Fiat ‘allows’ and promotes more and larger wars... and profiteering.

Guess I shouldn’t be overly critical of Martin Luther King’s purported sexual escapades if I’m not just as critical of George Washington Thomas Jefferson and Ben Franklins.

No one deserve a free pass.

What a sweet bunch!

Translation; Wat boefjes! 😊

I think the pretty weather girl, knows ‘what it means’ cause she blinks when saying South split, it’s wet and other things describing the weather and suggestive of other things as well.

It’s a tell. 😊

These may be our options and hate to say, it may not be up to us, domination by; the Easy, Globalists, religious extremists, Russians, Chinese, Indians, trans-humanists etc... is space the place?

Babies in rushing around are you trying to teach patience or impatience?

Imo and per GW's farewell advice, we have no business; policing the world, intervening in Europe, Asia or anywhere else. We need the most robust defense in the world. If hypersonics are the greatest threat, we need to own them and to own the defense against them. We should keep up with whatever the 'latest thing' is because such a strong defense means we may not need to use it.

The exodus is here
The happy ones are near

Your faith was strong but you needed proof

Princess cards she sends me with her regards

Wounded deep in battle, I stand stuffed like some soldier undaunted

Must admit that it's a physical attraction first that gets my attention. After that it's a battle of the sexes but that can be overcome by love. Equality? Well, we're quite different ~ so are our definitions and expectations but it's possible.

Took 60 mg of prednisone yesterday and today for my lower back. Across the street, Jim is hunched over and walks with a cane. He and Linda were ballroom dancers, was he in the game too long? Need to quit digging holes, lifting couches and maybe Doc Finkelmeier wasn't joking when he said, "stop playing pickle ball."

Back pain's like a toothache "... and a pinched nerve's like when a dentist hits one...

Dames zweten niet, ze druppelen en honden hijgen... vraag me niet waar ik dit vandaan heb💕.

Battle of the sexes revolve around sexual tension... 'intra sexual' battles revolve around egos... and both involve control.

The beach is beautiful not to mention that it attracts bikinis...😊

Did the 50 fertility doctors identified as subbing their semen for that of the legitimate donor “just” taking “be fruitful and multiply” too seriously? Or were they on the type of power trip rapists are on? Regardless both are arch criminals.

There's forgivable, forgettable, unforgivable, unforgettable and about 16? combinations thereof.

The rigors of female reproductive anatomy and childbirth probably aren't widely known or appreciated by men. Menstruation, vaginal tearing during delivery, hormonal changes etc... it's both an amazing system and one that could use some “improvements” on women's behalf.

As I struggle through another bout of back pain I need to remember that every movement can be a beneficial exercise or a damaging one.

Seems like a number of peeps and countries want to rule the world... how're they all going to do that?

There are mysteries out there that I must accept I'll never understand ...there's a ton of them; women, the great questions, the hereafter... Siri😊.

Be it this that or the other topic, we're a species that specializes in ignoring logs in our eyes and seeing splinters in everyone else's.

Donnie Swaggert and John Adams... A whitewash but when a family controls a network, it's par for the course. Adams portrayed as a pious Puritan, the world Unitarian wasn't uttered.

How many viewers'll take his word for it.

Hungry's president aims to curb corruption to obtain \$7.5 billion that the EU is withholding because he does not follow "the rule of law", of course these are their rules. Wef?

"Some countries have not voted in the general assembly of the United Nations against Russia, including India and Indonesia, and it's for reasons too complicated to get into here"...(paraphrased)

Constance Stelzenmuller Brookings Institution Center, Director Center on US and Europe

So let's not mention it at all? If you're going to be critical of their vote why not briefly discuss it?

Tackling back problems by being more responsible physically is difficult after 60 years of habitual overuse and for the most part enjoying and getting away with it... till recently.

Ik weet het niet zeker, maar sommige mensen denken misschien dat ze door naar de kerk te gaan boete doen voor degenen onder ons die dat niet doen... hmmm.

Caucasian, Eurasian... hybrid.

The war in Ukraine / don't know who's worse the Russians or the globalists... macro / micro.

Me thinks IQ's far from definitive but it's not worthless. Different peeps and pops have different degrees and types of intellect.

All I have to do is look at the pictures on my wall to know why I want to honor, Genesis 1:28, Which starts out as, "God blessed them and said to them, "Be fruitful and increase in Number." Along and equal or greater than that is to obey what I think is probably a real command from on High, and it's a case where the Bible and nature or at least mine and many other peoples' nature's coincide... not to mention it's been a lot of fun! 😊🙏

Why? Because everybody has biological imperatives and those whose imperatives impair ours, I will not support... Other than on specific subjects on which our interests coincide, why the heck would I?

Human nature wants revenge for past wrongs, some peeps want it more than others and if you are in their crosshairs, look the heck out.

I don't believe your peeps are cursed but think you have a "well earned reputation" ... as do we.

Mom and Dad were still teaching me in their old age, her with a cane, him with that long shoe horn... and that's just part of it.

Appreciate great bands and musicians but would rather see them on good video in their prime then watch them in their 70s, same goes for travel. Seeing sights, walking paths and touching stones may be unsurpassed but at 66, I'm fine with high-quality video.

"Beds are burning" ...me thinks every peep on the planet is fully human but some remained what they call primitive and that's fine if they want ~ but I do wonder why?

"I came for you for you but your life was just one long emergency Bruce slab

Don't know if Tim was standing by ballroom dancing or the water but I want to avoid pickle ball and the latter.

“They did the same in Ukraine, they invested \$ 5 million to get regime change. They flew in Saakashvilli, president of Georgia to become governor of Odessa. They flew in an official from the state department and that person was nationalized into a Ukraine citizen that day and she (Natalie Ann Jaresko) became a minister of finance (2 December 2014 – 14 April 2016) so this was a US planned coup. I see the same strategy of provocation and confrontation towards China, and Taiwan might be used the same way as Ukraine was used” ... Willem Middelkoop

Making the best of a bad situation or a bad back May not be that different.

There are those who say that men are physically stronger or more intelligent than women, I generally disagree with the latter but think nature May have prescribed the former for a reason.

Trying to do things better but between lack of information and laziness I screw up from “time to time.” 🙄

Neither original or profound, but we’re here till we’re not 😊.

“In Zimbabwe there are millionaires and billionaires and they can’t buy eggs” ... Smart Money

Some have questions, some have beliefs and some have “answers” ... not sure they have wisdom.

I have questions, you have ~ well let’s call them warnings and I appreciate that but...

Ukrainian president Zelensky, “I don’t think he’s bluffing... (Putin) wants to scare the whole world with nuclear blackmail” ...

“Meanwhile the head of the Russian Orthodox church patriarch Kirill, says that sacrificing one’s life in the war against Ukraine will wash away one’s sins” ...and “US Secretary of State Anthony Blinken said, “The White House has warned Russia of catastrophic consequences...that Washington has a plan in place if Russia uses nuclear weapons against Ukraine” ...Crux (YouTube channel from India).

Sons of light and sons of darkness ~ can you tell who is who?

Indianapolis upsets the Kansas City Chiefs... Bread & Circus ☐.

On the Giza plateau, a new high tech technique called the Muon EGP Mission will scan the “Great Pyramid.” With greater resolution and computing power than earlier scans, might it shed light on the purported hidden chambers in the pyramid? # Is there a hall of records?

Why would you expect Jewish people to be less loyal to the goals and the success of their religion then we’d expect; Christians Muslims Hindus Buddhists or anyone else to be? Despite the flowery talk from some religionists they seem to think the end justifies the means to achieve “success.”

Listening to Jimmy Swaggart rattling off his list of what’s wrong with; Catholicism, Seventh-day Adventists, Islam etc. and two or three others I believe all I can think of is this guy is scary.

But their music’s good ☺.

To all these brilliant peeps, please concentrate on keeping the; trains running, highways moving, planes in the air, roids from hitting earth and curing cancer... far as morals etc, please mind your own business.

That doesn’t mean that there wouldn’t be exceptions and those should be state by state and community by community as much as possible.

Headlines on “Redacted” ... Putin Readies Attack, Serbia pisses of EU, Trans drugs for children, UFOs in Washington. OK that all sounds a little Bizarre. Clayton Morris is a

former Fox News anchor, who along with his wife Natali Morris started this YouTube channel. I think they're broadcasting from Portugal and think he was implicated in a real estate scam in the US do your own diligence.

"We welcome our rebel army", says Clayton, "if you're watching this show you've rejected the main stream media", he says. They don't have the huge following of an Alex Jones but this episode has already had 172,000 views and was published only yesterday.

"We've seen some major changes lately like in Italy where supporting the family is now seen as rebellious. Wanting to take care of your own family your own people is considered rebellious. Gardening is now an act of rebellion... (so is) having your own chickens ... we know who the major players are, East meets West - China, Russia versus United States and the European Union. And we are increasingly watching countries on the margin that are having to be diplomatic Serbia is one of them the EU is not happy with Serbia because they do not continue to kiss the ring of the EU they are in big trouble they have some explaining to do they are in EU time out"... Redacted.

This reminds me of Ursula Gertrud von der Leyen's remark regarding Italy that the EU has tools to persuade Italy to do what they want.

There are dozens of other countries 'on the margin' who are non-aligned and looking out for their own interests perhaps India is the most prominent.

One could say that there are people in America who are also 'on the margin', who are not in tune with; Klaus Schwab, the Clintons, Michael Bloomberg and other neocon elitists, intent on eliminating the second amendment, first amendment freedom of religion etc.

Oh well it's hump day, what do you expect.

'Things that go bump in the night', it's funny in the morning vision's restricted and sounds are amplified... can't see it darn thing but everything's loud.

Boris Johnson, how did he get a Russian sounding first name? And why does Ursula Gertrud von der Leyen remind me of QE2?

Same old elitist, 'aristocratic' songs and dance... are they aligned against the same old Marxists? God help and us protect us from both strains of insanity.

Careful they sign your check ☐.

They talk about the browning of America and I believe it but I don't think it's on the scale that the TV and commercials portray... that is something else entirely.

"All the worlds indeed a stage and we are only players actors and portrayers" ...Rush.

Putin, Trump, Lapid, Truss, Modi, Xi, Von der Leyen, Biden, Erdogan, MBS etc... a veritable rogues gallery of scoundrels playing mostly nefarious roles in the unfolding drama aka Tide of history ☹️.

Fall is here and my joints ache, guess I have to come to terms with eventually using a cane etc. maybe that's not as bad as it sounds.

Meanwhile Biogen's up 46% pre-market as a large scale trial of their Alzheimer's drug shows promise 🙏. # But our smart TV still can't turn on Bloomberg (love-hate relationship)... switching to music.

Just realized another thing that works better when you do it slowly ~ picking up a bar of soap that slipped into the tub... specially when it's getting slim.

Going to a Jewish funeral tomorrow for the first time...

Alison's singing, "I know who holds tomorrow."

Picturing myself walking around the barn in 20 years God willing whistling and the kid wonders if I'm happy. Of course I am not super Duper happy but pretty happy, of course the world has kept going perhaps on and if so unfortunately in the direction we see now but that means it's getting closer to the time when people can leave and start anew and terraform.

Tripping over a sweater in the dark is like drowning in an inch of water...sounds ridiculous but it can be done. # God forbid a pillow.

Men and women ~ I hate to talk about the battle of the sexes, maybe competition is more like it and cooperation the goal but it's difficult to achieve. The ladies seem form over function which I might see that as subterfuge. They may see it as necessary or natural to survive in a quote on quote man's world. A seemingly unfair place where they bear the pain of childbirth and the greater responsibility of raising children. We men value freedom, which women value too but they know the necessity of security and therefore want structure. # Are we just selfish?

I pray there won't be scores to settled and ye won't become the spoils of war
Watch your back, watch your top knot.

Slow down, calm down, get down

Come on guys... let's get it together!

Interesting how our 'falls' are due to misfortune and theirs are due to pride.

Scratching's like eating... the longer it takes to be satiated the more damage's done.

Don't know the mechanism by which Mary was fertilized or how the name Jesus has power but believe in them. There's other things too of which the mechanism's beyond me but I'm dubious of; Constantine, his court and his counsel. Doing his 'job' or a vicious tyrant? #Who looks like him?

Listening to Breathe (2 AM) which I love and apropos to nothing thinking we should be a team but women should not rule men and men who want to rule anyone are often politicians and I wonder if we even need them? We can't agree on what equality means but I believe men want freedom and women for obvious reasons want security which requires more control over others than freedom... governing's 'fine' ruling is wrong. # A Constitution.

Be kind, confident and humble
Not sure you can overdo kind.

Kimmel, Fallon, Miller, Keane etc, etc... 'pros', useful idiots, collaborators, fellow travelers, opportunists... victims?

#Take your pick .

"Who do you believe more?", they ask "our government and news or theirs?"

It's a good hook, cause if you don't say ours, you might be called a "traitor." Reminds me of if you don't want to vote because both candidates "stink" because if you don't feel like picking the "lesser of two evils", they say, "you didn't vote so you should have no say." It's a Catch 21...

"The internal combustion engine is doomed because all it's intended to do is turn a shaft but it's so convoluted that it's ridiculously over-complicated. Water wheels, windmills, ponies or humans on treadmill and of course electric motors do it much better" ... James May (paraphrased.)

Still counting on my fingers... it's tried and true, so why not? Mostly useful for keeping track of little things.

If you've thought about cheating you've cheated is approximately what Jesus said I don't remember if he said we're held accountable for it? It makes me think about pornography which once we are exposed to we can/may never erase as far as I know. Attraction leading to the thoughts of cheating may be instinctive where as pornography probably isn't and there in lies the rub and a difference. That is why pornographers should be held to account. We may never get rid of both of these things but the latter when acted upon is worse. Pornography often depicts unnatural and or violent acts where as the thought of cheating may be more natural and may/should be resisted too.

"Tendencies" ... is that an "okay" word? According to the PTB, "Bell curves" isn't. # What about just "curves?"

No one's asked me what I think but if they did, I'd say sons of darkness look out, I'm hopeful for the Sons of light. So are they the chosen people or the devil spawn? History shows they are consistent in their beliefs... the rest of the world takes turns.

Here's a bell curve are we concerned with what other people think and do we admit it, or is that a second one?

I identify as Christian... Protestant, Catholic and Orthodox

If you're still intent on the white glove treatment to impress or whatever those who've gotten over it, you might be making a mistake...

Do what they've done?

You've heard the song "My own prison"? It's bad enough but don't make it someone else's too.

Baby crying all night long? Guessing There's a good chance it's your first baby. Not being an expert on babies I remember what the 80 year old daycare worker from Harlem said "train them or they'll train you." Baby won't let you cut his nails? Has he seen you cut yours? Going back to sleeping at night a reasonable solution might be put the baby in its own room or crib and let it cry itself to sleep but the mother in particular may not want or be able to do that... what about invisible earplugs? Perhaps limit the effectiveness of crying but

not eliminate it. In a perfect world, the more they cry the slower I move...

How does spreading lies created by others, compare to creating original lies?

The God of the universe designed it in such a manner that despite all our schemes and machinations there's only so many changes humans can make some things are written in stone that including to some extent gender.

The "rules based international order" it's a talking point for western leaders and Geo political influencers. They are worried that Russia and China both of which have significant, "military capabilities", are directly threatening it. The problem is that special interest groups a.k.a. neocons and globalists in the west have misused these rules to further their misguided agendas... they have made the bed and now we the people must lay in it.

"Come on come on marry for the money... you lie cheat and steal from us all"... AC/DC Fellas, they're not stealing from us, we want babies about as much as they do and that costs money!

Giant aircraft carriers... that's one heck of a reef #GodSaveTheCrews

Sons of light or sons of darkness ~ are you mostly one or mostly the other? In any event let's

all try to be and do better .

The slower I move the faster I get things done, in addition to fewer mistakes I might find a good rhythm not a bad one.

“Those who can make you believe absurdities can make you commit atrocities” ... Doug Max (not really Doug's quote but he didn't attribute it to Voltaire, in fact he put his name on it.)

“Political leaders should have the serenity to accept the things that can't change, the courage to change the things they can change and the wisdom to distinguish between the two” ... former German chancellor Helmut Schmidt (not really Schmidt's quote but he didn't attribute it mostly to the Serenity Prayer.)

You're so English my dear ~ self-assured and domineering... or is it insecure? # it's control baby control.

Armies, police and security services... whichever interest group's I'm power will use it accordingly.

Bloomberg reports that housing prices have dropped the most since 2009 and the expert says, “seems like blah blah blah.”

That's actually good and more experts should start out with the phrase, “seems like”, cause

no one really knows.

Based on channel 8's news and commercials this morning, I get the impression that there're very few whites 'left' ... # “Nice” job DuJuan.

Autonomous driving's in beta, the Internet's in beta, streaming TVs in beta... the whole freaking human experience's in beta and always has been. # Good freaking luck

!

“Abortion stops a beating heart” ...

Some would have society treat an unborn child like a tumor.

Is it an illegal war they ask, yes or no they tell you. Talking's better than fighting, “what if somebody gave a war and nobody came”, and every war should be illegal except purely in self-defense.

Don't care about being with “identical” peeps, want to be with peeps who're “generally” on the same page bout things they think matter... demographics might take care of themselves.

Interesting that in addition to hundreds of special interest groups around the world and a dozen or so powerful ones in the US alone, there are hundreds of associated “Think Tanks”, in the US and thousands around the world lobbying for their owners... aka a very tangled web.

Political puppets manipulated by powerful masters to your detriment?

The man upstairs can beat anyone in chess... or any other game.

Just saying

Just as the neocons adventures in the middle east led to the rise of Islamic fundamentalism, their schemes in Eastern Europe have led to Russia's military buildup and adventures. Their embracement of; WEF, and Soros may lead to further disastrous conflicts... easy come easy go.

According to the UK defense ministry, Russia has lost nearly half of its in-service Ka-52 helicopters in Ukraine. Is this a complete disaster or an ‘opportunity’ for the Russians to get rid of old inventory and order the development and construction of new improved helicopters?

Jobs and ‘real estate’ ... as usual.

We're not that different but we're different enough that I want to be with our own... is that wrong?

Pure democracy gives one group ‘the upper hand’ over another, eventually necessitating rebellion or submission.

Ultimately and in the extreme
“Grief is the price for love” ... Queen Elizabeth II.
Pain is the price for life.

“It belongs to them let’s give it back” ... Midnight Oil
Go head, give it back if you have the title but if you touch mine you may lose a finger or two. Somewhere along the line I heard that it belongs to God not us and not to them. I believe we’re stewards for a while and if we don’t defend it we may lose it.

It’s odd... even things we agree on we can’t agree on, like the importance of raising children “well” but what does that entail? Opinions differ and as I empty the dishwasher and put the Guinness glass in the cabinet it reminds me that just as some like a mug or a stein versus a glass we also differ on how to raise children but our goals are the same.

On a ridiculously related note, why do peeps use my whiskey glasses for juice, and why do some want prohibition and why do so many peeps get drunk?

Like talking to baby cause he doesn’t interrupt... kinda like Scooter.

Increasingly I scan the headlines on YouTube not on the local propaganda channels. You don’t even have to watch the videos ~ the hook lines tell the story.

Shouldn’t have to repeat ~ we are stronger together and we don’t have to win every argument.

Shouldn’t swear but today’s a proverbial effing Monday if there ever was one ~ already

dropped 10 things... and Siri can’t understand a thing I say .

Why would I trust anything Apple tells me about their phones ie. radiation etc.? As it is the damn light comes on when I don’t want it and won’t come on when I do... they’re either incompetent or up to no good Mr. cook. # but when it works it works

I pray otherwise but your actions may be leading up to you becoming the spoils of war.

When others speed up slow down...

There are solutions to every problem and monkey wrenches to every solution

Don't rush because as soon as you complete one task for them, they'll have another... for them. That's not to say there aren't important things in life and they are for you to decide.

The war in Ukraine I don't know who's worse the Russians or the globalists influencing Ukraine ...

"All the world's indeed a stage and we are merely players, actors and portrayers" ... Rush
#The ancient Greeks knew that and they weren't the first.

\$Surovkin (General Armageddon), Putin, Biden, Sunak, Truss, Fink, Trump, Rebbe ... etc.

"Tory leadership: Kemi Badenoch backs Rishi Sunak to be the next PM

By Sam Francis, BBC News

Why is there so much coverage of British politics and economy? I'm guessing it's because we're joined at the hip at least the elites are... and they're not necessarily Anglo-Saxons. Strange bedfellows no more ... God help the UK (if they deserve it) they sure as heck need it. If Tory stalwarts think they can manipulate Rishi and Kemi, they may be sadly mistaken. Cons conning cons?

Back at the ranch, if you speak with a British accent as so many; analysts, newscasters and sales peeps on US channels do ~ you're taking seriously.

#Joined at the hip along with Americans of German and other extractions who've dominated the scene for centuries, who seem intent on relinquishing America not just sharing it with all comers.

We're different animals aka different species. Don't know what they're thinking, what they know or if they know us as well as they think.

The thoughts we have might frustrate and blow them away and vice versa. Different priorities and imperatives but we can get along.

Testosterone is associated with aggression and estrogen with emotion. It's no surprise that both lead to outbursts and both sexes 'go to war' with the army they have.

"They will not control us, we will be victorious", is what Muse says in "Uprising." It's what

lots of peeps say and that's why wars keep coming along. everyone wants to be victorious more than to coexist.

The more things you can keep just between you and the man or folks upstairs the better but that doesn't mean everything.

Never met a peep who's this that or the other thing who's not for this that or the other thing, nor do I hold that against them but I'm wary.

Problem is I'm not like them, don't wanna be like them and especially don't wanna be forced to be like them.

For example, can't say ~ never had an intelligent conversation with a black person and don't think they're very smart or think Chinese are a bit crazy. Wish them well but don't wish all their dreams to come true because it would likely screws us. Hope we don't screw them either but we'll be blamed regardless.

Fiat money may finance wars that are important and may save humanity... but who decides what's important and what's humane! Globalists, Brics or who?

Currently me thinks it's globalist neocons who control the narrative but what if the changes? What if the easy go away or if the Brics Russia start controlling it just as much?

I figure Putin's a bigger liar than the good leaders in the west and about the same as the bad ones...

First station I turn on NPR? says "destruction of habitat threatens their (animals) very existence." The next station's religious and they say something that contradicts the previous statement... it occurs that both are stations are "religious." Five minutes later I'm watching PBS and the guest who's trying to raise money for the network refers to the "ethos and power of PBS" ... and that reminds me of religious talk.

Old Indian saying, "when you walk wherever you walk the ancestors are walking behind you"

Simple minds don't forget about me drum

As Sonny's car pulls in and the baby is being fed in the kitchen nook I say to myself I am one lucky son of a gun at the moment but you know how that goes

How very quickly things can change 15 minutes later there's a knock down temper tantrum argument between 49839 and 49279.

Without getting into details all I can say is nobody's perfect. I can say that about all of us and about myself I can say I'm not anywhere close.

Then the radio comes on and they're talking on one religious station about Muhammad on and about God on the other and how the enemy tries to imitate everything good that God does but in reverse. Problem is *said* religionists are trying to decide which is which and they have no more qualifications than we who are admitting our imperfection.

I turn back to preacher Eric Prince's station, he says Christians in the west have misunderstood and miss underestimated the Muslims. He said if they ever take power they will first oppress the Jews and then oppress Christians... who knows.

Pastor Prince's show ends and a new pastor comes on and he's also anti-Islam... maybe with good reason. Then I think of Swaggart who's anti-other denominations and Catholicism and I wonder does everybody have good reasons or are all these religionists wrong?

With the verbal fight that was going on I was a little reluctant to leave home and our tiny family all there except for Ross... maybe they need me out of the way to figure things out... God help us! In any case, I Went home way early because I was scared for them, sad and lonely... but I wondered if my sad and lonely might not be like everyone else's...

Then Queen comes on the radio singing... "we are the champions my friends" and it makes me think for some reason that we blame everyone else for what's going on in our lives so the lesson there might be, watch your top knot and pray.

Pray for peace.

Then coincidentally or not it's Jewel singing, "who will save your soul" and something about Social Security and a line about "it don't pay the bills" and a lot more.

The next song that I stopped on "Don't fear the reaper", followed by ABBA and "The history book on the shelf is always repeating itself Waterloo I was defeated you won the war ABBA slab

The next song was our time in the universe Chris Cornell

We're all pretty good at the blame game we're pretty sure that we're doing things pretty good. Doesn't matter if it's driving the car or arguing with our friends and family.

A pick up truck approaches from behind with a massive grill and hood. It is aggressive looking and I wonder if the drivers feel empowered because of that. It's actually a little scary that it's so *American*.

If you don't believe in the hereafter in the man upstairs just drive down Salt Creek Road on

a fall day when the leaves are blowing and Elvis is singing when the saints come marching in.

We're both for equality but we can't agree on it because we're different. You say let's go by majority vote and I say, then we might as well go by force.

There is a battle of the sexes but we have an armistice and the bedroom's our demilitarized zone 😊.

"After 60 Minutes", starts with a stopwatch ticking very fast, perhaps to emphasize the urgency of CBS's report" by Vladimir Duthers?. He says "the US and Russia are fielding new nuclear weapons that makes it easier to make the decision to use them...So this is the rotary launcher and it holds eight air launch (nuclear) cruise missiles within the bomb bay of the B-52. It's a tight fit but the way it works the launcher rotates allows the weapon to release and send it on its way" ...

"Just like the chamber of a revolver " ... he says and his black air force guide says, "same idea just much bigger bullets... we can put this aircraft anytime we want anywhere we want and both our allies and adversaries know it" ...

(3,500 yrs apart the slaves did it again) #why's it racist to mention bell curves and opine that some peeps seem even more willing than others to pull triggers or drop bombs? Riots, looting and "education" has really paid off! Of course George Washington was just an old racist fool, so his farewell address must have been folly.

Small example of form over function; you'd have me constantly stand the deodorant and which constantly gets knocked over again... does it makes sense? #priorities?

Does the baby gravitate towards me? Don't know but trying not to makes fun or embarrasses him & I show him round the house and yard #Babes have feelings too!

Is it possible Ukraine/Russia is like Israel and the Palestinians something that's been going on for thousands of years? Why are we involved? Who are the players?

Dare I say the protagonists and profiteers are about the same. Is it possible that Biden is a useful idiot and a gangster, is it possible his strings are pulled by someone or others and Trump... what about Trump?

We excel at

Blaming others for problems we excel at it I'm a superstar, maybe it's a survival instinct but I'm trying to get better at being slower to 'pull the trigger'. Hopefully I'm making progress because most of my problems are my own doing and most of the things I lose are lost by me ~ and it carries over to every avenue of life.

Trying to be respectful to a 10-month-old, don't wanna embarrass him, don't want to bear hug him or be too rough, just want to be close enough to catch him if he falls. Don't want to laugh 'inappropriately' at him because he's listening, processing and analyzing what we say, react and do. Probably doesn't matter yet but I plan on calling him young man, not little man... is this 'woke' or something else?

Why does Apple radio always recommend I listen to hip hop etc when I've never selected it?

Mr. Obama and co. are always looking for teachable moments.

Doing PT exercises, I wonder what's more important~ testosterone or proper form? Going with form... testosterone just moved head hair to other places... one debacle at a time. please.

Regularity is becoming more and more of a problem, if I don't 'get it out' when it wants, it'll go back inside and that's bad for everyone involved a.k.a. me, my colon and anyone in fart range.

Your faith was strong but you needed proof
You saw her bathing on the roof
Her beauty and the moonlight overthrew you

Doing things in the right order and prioritizing make a lot of sense but conditions are constantly changing so it's a challenge.

We are by nature jealous and 'want' what others have, even if we don't want it. This refers to everything from mates to mullah. Looking at the pretty anchors on Bloomberg, I get the feeling that A and B suffer from the same sexual-harassment and can relate and sympathize with each other on that level but they'll use what God gave him to get what they want or need anyway and sometimes they'd rather neither have it then the other get it.

Got off on a tangent this morning about babies the toys they play with and the wicked streak men have...

don't know what the heck my wife thinks about but pretty sure it's not what I think about 😏.

#Got in tub and listened to Zepparella "In my Time of dying" ~ Lady can play guitar 😊

Someone said they play their own stuff stead of covers because they have integrity that's like saying I won't read any other books just write my own it's bullshit.

Might be peeps my age can play drums like they're 20... sure ain't one of em 😏 😊.

You probably won't agree but there're things we can determine with statistical probability and fewer determined with statistical certainty. We usually pursue the goals of our religious or political groups with great effort, surpassed only by our desire to ensure a pleasant hereafter and a pleasant present. Who we follow usually determines our marching orders and who we watch usually determines our opinions. Good morning Tom (who's talking in your ear?), Jonathan and Bramo... and thank you for your 'data check', and Lisa (nice biceps 😊) for "First Word." # 'How do we talk about today's inflection between inflation & emploument' Bramo (paraphrased 😊)

Biden's greatest attribute is that for a man his age he has good eyes. Joe can read notes and teleprompters better than a younger man... aka me.

Tis a silver line to sinus problems, as one breaths and one filters... the latter's useful after pouring too much Doc Teals in the bath ☹.

Not sure if we're under an; occupation, boccupation or troccupation?

Majority vote? Utter nonsense ~ we've sanctioned ourselves according to the will of those who outnumber and want to control our lives...can you say stupid?

You think you know more, but you no more understand us than we understand you; black, white, Asian, male, female, LGBTQIRSTLMNOP etc., especially the so-called experts who either live in ivory towers, or've been more indoctrinated with each degree they "earn" for spouting and foisting their party line. Let's live in peace and mind our own business... or walk away. TPTB collateralize damage & to a line on their P&L statement and if you go along with the program you can buy a new iPhone every year.

Why be surprised when we return to our religious roots? Looking at the pic of Wil. Lafayette Sr, I wonder if we're close to being on the same page? Guessing, he was a man of faith... maybe he didn't follow the herd and might of scratched his head too.

Sometimes we get what we deserve, sometimes we don't and sometimes we get the opposite... riddle me that? If course there's the hereafter...?!!

So, the slower I do things, faster seem to get them done due to mistake reductions but have to ask - generally speaking, why does it matter how fast they get done?

It's 'interesting' how some see everything in black and white. They are good others are evil, me thinks they tend not to believe in bell curves, nuance, or that all tiptoe the line tween good and bad. They believe they're; superior, chosen or not necessarily better, just better off and should therefore make the rules. They tend to believe the end justifies the means, giving them license to do whatever they want... aka God, The universe, or whoever's will as they interpret it.

Interesting we talk about the Arabs being constantly at war but when you think about it, so are we ... and it's often with them.

Also interesting how members of these dominant world cults are workaholics ~ from the top down they spend you like nickels, dimes and quarters, as they compete for world domination.

Watched a YouTube on “Medical aid in dying” a.k.a. MAID.

Made me think about China and organ harvesting of prisoners... also made me wonder about what might best deter crime? Also been thinking about abortion and collateral damage in war...

Why do those living off the taxpayers, have the power to tell taxpayers what to do? And if they don't, are there special interest groups that do?

When tasked with babysitting keep your eyes on the babe and watch the rest of the world through the corner.

Matter is always preserved they say but what is the soul ?

Not in any way saying abortion is the same as collateral damage but those who insist on no exceptions often have no problem with bombing civilians and collateral damage associated with that. Rate is often an act of war...

You say you've always known... Known what?

Methinks the faster they tell you to go the slower you should and the more they demand the less you should give.

@It belongs to them let's give it back", are you talking about indigenous; people, plants or animals? Which of them will you pay rent to? Your song is a warning to anybody with common sense...

Democracy? That's not exactly how our country was founded, twasn't it a democratic republic? Me thinks the experiment is failing because as we move to 'pure democracy', what Margaret Thatcher said may come true. If peeps won't or can't pay their bills which includes reasonable taxes and if you live off the largess of the taxpayer yet are a huge voting block, the country might go bankrupt.

Pure democracy eventually means the end of free enterprise, the ruination of entrepreneurship and governance by those who by platitudes and schemes, followed by votes and violence, would happily confiscate the fruit of your labor.

An ironclad constitution agreed-upon by the people is more important than the political system supporting it except that those who want to leave overtime should be able to with what they have legally accumulated and if a time arises that the majority don't like the constitution then the minority should have that same right to leave, or be prepared to defend their property and way of life.

Got no problem with learning from one another that's great but don't want to be co-opted, absorbed or disappeared... you say that's unfounded ~ I hope so.

At the table, Sonny brought up (bus pass ☺), my expletive laced meltdown at Best Buy 25 years ago and I said there's a backstory. I was supposed to show how being an asshole wouldn't help me get mu wau (☺).

Poverty and mental illness need to be tackled carefully, intelligently and sympathetically. Environmental issues should be handled similarly and those with a profit motive shouldn't run the show. Droughts occur one place while there's abundance elsewhere... it's hard to mitigate but should be attempted.

The same applies to poverty and mental illness and those afflicted or those caving to the affected should not run the show.

Self-awareness is a funny thing there are pros and cons. It helps us plan for the future but also to worry about it ...or the lack there-of.

Brain vs brain... no wonder human relations often end in clash, conflict or misunderstanding.

They control the media and therefore the narrative. They want to control the world but things in Ukraine aren't going that great, so they want to start a bigger war but they may instead end up with a revolution... easy come, easy go #time after time.

#Nor wouldst ye listen ☺.

When people get together just listen to all the chitchat ☺.

Certain forms of democracy are great but pure democracy is simply ridiculous. You're acquiescing to a system where a majority including those who live off the taxpayer and do no work control society and the police and Armed Forces are sworn to uphold their will and that of their leaders who are basically special interest groups who also feed and enrich themselves at the public trough.

There are tolerant religionists, intolerant religionists and many in the middle... where are we?

Funny, when cleaning the floor around the toilet it's the little spot you miss that makes a difference to them... #b Anything to do with the outside of a cup or Highchairs 😊?

Funny thing this bum shoulder, hurt it months ago cutting a 3/8's wire rope with dull cutters whilst hanging oer the creek. Now, hurt it cutting through 1/8th inch cable with dull linesman pliers... appears there's a common thread (🙄).

Listening to the; news, analysts and video bloggers reporting on Ukraine, I realize it is indeed an info-war, chock full of; spin, lies and propaganda on both sides, and I think about what Alex Jones said and says.

Wow saw the orange moon eclipse totally eclipsed by the earth's shadow shadow this morning it was very cool!

I ask if I can get closer to it, not explaining that I want to know what I'm dealing with 😊.

Being more interested in the historical than the hysterical Jesus doesn't mean I don't believe in the resurrection, virgin birth or miracles, it means I don't buy the; English, Italian, Catholic, Protestant or Orthodox only versions of Jesus. They came from Constantine (or maybe Paul?), and appear designed to scare and "unify" for elitist power and control... truth be damned, burn the books and troublemakers should be their motto. "A review of the world literature on brain size and IQ by Rushton [Rushton, J. P. (1995). Race, evolution, and behavior: a life history perspective. New Brunswick, NJ: Transaction] found that African-descended people (Blacks) average cranial capacities of 1267 cm³, European-descended people (Whites) 1347 cm³, and East Asian-descended people (East Asians) 1364 cm³. These brain size differences, containing millions of brain cells and

hundreds of millions of synapses, were hypothesized to underlie the race differences on IQ tests, in which Blacks average an IQ of 85, Whites 100, and East Asians 106. The validity of the race differences in brain size, however, continues to be disputed. In the present study, the race differences in brain size are correlated with 37 musculoskeletal variables shown in standard evolutionary textbooks to change systematically with increments in brain size... In the US and around the world, East Asians and their descendants average an IQ of about 106, Europeans and their descendants about 100, and Africans and their descendants about 85. The lowest average IQ scores are reported for sub-Saharan Africa, about 70 Jensen, 1998, Lynn & Vanhanen, 2002, Rushton, 2000. Average IQ differences between individuals and groups, including mean racial-group differences, show up before age 5, and they last a lifetime (Jensen, 1998).

Among individuals, intelligence is related to brain size. This has been documented in about two dozen studies using magnetic resonance imaging (MRI) to measure brain volume. The overall correlation between IQ and brain size measured by MRI is $>.40$. Gignac, Vernon, and Wickett (in press), Rushton and Ankney (1996), and Vernon, Wickett, Bazana, and Stelmack (2000) have reviewed the evidence. Altogether there are now about 15 studies on over 700 subjects showing that individuals with larger brain volumes have higher IQ scores. This is much higher than the .20 correlation found in earlier research using simple head size measures, although even simple head size measures also show the relationship. Rushton and Ankney reviewed 32 studies correlating measures of external head size with IQ scores, or with measures of educational and occupational achievement, and found a mean $r = .20$ ($P < 10^{-10}$) with people of all ages, both sexes, and various ethnic backgrounds.

The races differ in average brain size and this shows up at birth. Rushton (1997) analyzed the enormous US data set known as the Collaborative Perinatal Project. It recorded head circumference measurements and IQ scores from 50,000 children followed from birth to age 7 (Broman, Nichols, Shaugnessy, & Kennedy, 1987). The results showed that at birth, 4 months, 1 year, and 7 years, the East Asian children in the study averaged larger cranial volumes than did the White children, who averaged larger cranial volumes than did the Black children. Within each race, the children with the larger head sizes had the higher IQ scores and by age 7, the East Asian children averaged an IQ of 110, White children an IQ of 102, and Black children an IQ of 90. Moreover, the East Asian children, who averaged the largest craniums, were the shortest in stature and the lightest in weight, whereas the Black children, who averaged the smallest craniums, were the tallest in stature and the heaviest in weight. Therefore, the race differences in brain size were not due to body size"

According to the above, the differences in adult IQ is 30 points between sub-Saharan, Africans and Europeans and 6 points between Europeans and East Asians. IMO, 30 points is more important than six.

People are like critters when it comes to real estate. Chipmunks move in from the neighbors yards as fast as I deport them. When we get rid of them other's who've been scoping the hood move in. #Who will pick up the pieces?

Walking into the kitchen with the light on, I realize that peeps on the beach could see my nakedness.
Just trimmed brows, and man skapped but ask why. Answer is to keep up with my beautiful wife, but

that may be fudging a bit... when put on the spot, peeps tend to fudge a bit

As the numbers for the CPI, jobs reports etc. come out on Bloomberg ("Your global business authority"), and they talk excitedly about what the Fed wants to see, I'm imagine the number crunching staffers worked very hard but that doesn't mean someone isn't cooking the numbers for political reasons... "It's coming in as expected... we're seeing a little bit of improvement...there are some statistical changes that may have affected this... gasoline prices are up"... Michael McKean. Jon, Tom and Lisa are equally sanguine as they discuss percentages, and disinflation.

You're not 10 times or even twice as smart as the rest of us. You may be 5% smarter or 25% smarter than some and generally in possession of less wisdom and common sense than most others ... so stop trying to run our lives. #Don't forget at least equally greedy.

Don't want to travel the world and be rushed or rushing from one tourist trap to the next. When I've done that I've had Montezuma's revenge and been herniated from lugging luggage.... If you want to do it go right ahead.

Talking about crapping one's pants is very unkind. It might be due to an "overdose" of laxative, etc. in any case why would one even bring it up?

The singing had already started
as we walked into the church, "everything that's not of you must burn... victory is ours... God is on our side" - I may not have the words exactly right but that's darn close to the lyrics. Guess I shouldn't have been surprised. After all we have driven past a number of defense contractors as we approach the church, and it was near Hurlburt Field. The song he contrasted with the friendly faces that had greeted us and set the stage for the mega church service. The thing that got me was that based on the Church's history of burning books and people I was thrown off. Whatever happened to, "our God is an awesome God, He reigns from heaven above, with wisdom power and love." Guess it's not enough anymore...

The neocons via Kamala lament the threat to their, "rules based order", and I wonder if that just means a threat to their boot on our necks?

Why do so few talk about the SOD and EZ? Maybe they don't know them, fear them or are utterly invested in them economically and "spiritually"... does eternal salvation depend on the rubber stamp?

A protracted war in Ukraine is just what the SOD and EZ, the arms profiteers and China want. For China, it's killing two birds with one stone; their old rival Russia, and their new one America. As for the SOD and EZ the reasons are almost the same. Having possibly misjudged the power of the two aforementioned, are America and Russia, hammers or nails? A.k.a. God's hands or sacrificial lambs?

#Soros, rebbes, A-Yahoo, Schwab and other fellow travelers, near, far and stratospheric .

Don't have to chug water all day, but if we just sip, we might never reach the out goal. Drink enough that you really feel it going down and doing something. Maybe our stomach maybe our stomach should gurgling in appreciation.

Another inexpensive way to; repair, reuse, repurpose and recycle - this time it's cheap nitrile gloves which can often be used three or four times. There's a trick to taking them off so they don't

tear...learn it .

Here're a few recent Ukraine war voice wreck-ocognition's from YouTube's closed captioning and Siri; Kupiansk is cupcakes, Typhoon jets are Thai food jets, Ukraine becomes "you Craig", the Prime Minister of Italy "Meloni" became baloney... Bakhmut, Ukraine becomes; bath tub, bad mood, Batman etc, and "The West's sleeve" becomes "The West's slave"... at least Siri got baloney right...

#are they comedians and isn't AI great .

Made another mistake due to rushing, this time the reacher grabber fell over... not a big deal but I should learn from it.

What it may boil down to, is I think we're good folks, you think we're not... take it from there.
convinced you...not me.

When I sent material to writers agents years ago and got rejection letters wasn't that disappointed. Thought oh well, least I can write unfettered, but that didn't last long. For years now we've had no privacy thanks to intrusive algorithms and agencies.

It's unfortunate all the things we have to do to keep people off our back, but a lot of some of them we

should be doing anyway .

I've an interest in seeing the world, but no desire, cause travelings a pain in the neck.

Russia-phobia and "Slavi-phobia aka sacrificing proxies... there is a long history and it's not just the Sod and Ez but their craving for power and hatred of these two groups, largely fuels the conflict, and we may be dupes.

Saw Dad in a dream last night, twas asking Mona if she was his daughter. He looked real as could be. Sometimes I talk to Mom and Dad and ask do you remember...?

of course she is

Listening to the retired generals of on British and American TV describing action in the war in Ukraine I'm reminded of TV gurus touting stocks, precious metals and giving economic forecasts. Its all self-serving baloney.

Thank you, Ms. Greene, "anec-data", that's a new one for me anyway

Elon says if you wanted to power the entire United States with the sun, you'd only need about 100 (square?) miles of solar panels, which he said would only take up a small corner of a state like Nevada. He may or may not be right, and it might be a good idea, but not one that should be imposed and result in economic turmoil for average folks, and make him richer still. Let it happen naturally and competitively without excessive subsidies to privileged members of society or industrial sectors. Damage from climate change will have to be mitigated regardless, so why pick winners and losers, enriching the chosen few in the process? I'm on the other things. It will just give them more money to donate tax free and as tax credits to their pet causes that lead to the oppression of everyone else.

It's Super Bowl Sunday and for the first time in decades, I have no interest in watching. I wish them

well but People follow leaders and I trust them as far as a bad punt

I should not make you rush around and you should not make me rush around. It's simple

Babies are so genuine. Sometimes I fake smile... not so the Prime Miniature... his are real... (I

Don't say things that are impossible to take back. Don't have to win every argument. You're a team is always more successful and stronger together.

The "leaderships", plans may include everything from reparations, retribution, and at the "fringes", to revenge and murder. Truth and reconciliation commissions would be a smokescreen... a subterfuge. The conservative activist on TV says boycott them, and market forces will counter the above and Wall Street's ESG weaponization of your money for their agendas... I think he's enormously understating the problem.

I oppose Chinafication, Africanation and Sodezification... not necessarily in that order.

The Bible, "Mother Nature" and my instincts seem to agree occasionally... to "be fruitful and multiply", is a prime example.

"The first mitzvah in the Torah is "to be fruitful and multiply." As the verse in Genesis1 states: "And G-d said to them, 'Be fruitful and multiply and fill the earth...'" After the Flood, G-d repeated this commandment to Noah: "And G-d blessed Noah and his sons, and He said to them2: 'Be fruitful and multiply, and fill the earth.'" ... https://www.chabad.org/library/article_cdo/aid/1005203/jewish/Be-Fruitful-and-Multiply.htm

Whatever happens, you and God have created an eternal soul...

Watched the first episode of New Amsterdam. She liked it, I didn't. Every woke SOD & Ez teachable moment possible was featured, including of course a white gal pursuing a black man. He told her he wasn't interested in her because he wanted black children... can whites state they want white children, or is such an admission racist? Children would be a little stronger but a little dumber... which matters more? Granted, the show's dramatic and well written but the SOD & Ez are very experienced in these matters.

Our leaders and the media have been lying to us for a long time, so who's responsible? Round up the usual suspects... they've been at it since time immemorial. # SOD&Ez\$££..

I wonder and hate to think how many “Americans”, especially newly arrived ones are (legal or otherwise), would prefer to be governed (ruled), by the; Chinese, Iranians, Russians, or anyone but “old-fashioned” Americans... this, in spite of what they might tell you.

They’re apes and so are we but they stopped a long time ago, we’ve kept going...

Call me anything you want including racist but I’m not. Just haven’t bought into us being automatically, inherently bad and you the opposite.

On hands and knees, cleaning kitchen floor after baby’s thrown his pouch full of green stuff and spilled Ramen, makes me think the missed crumbs could feed a mouse... kinda like a good size bugger

Thank you Lord, hands got dirty, adjusting the brakes, but this time the pliers didn’t pinch

If I say the “wrong thing”, to someone, they’re likely to judge me harshly with little recourse. If I say the “wrong thing”, to the Man upstairs, He will probably correct and hopefully forgive.

“The worst form of inequality is to try to make unequal things equal” ...Aristotle

Walking in the room she said,

“do you need any help, did you get it fixed?” ... “Think so”...I said, and viola, the ceiling fan light worked again. Not sure, but thought there was a slight glimmer in her eyes, and I felt like Ugarte in

Dodging peeps speeding to get home makes me wonder, why hurry? Is someone going to harass them for being late? Don't rush cause that person's probably gonna find something else to harass you for even if you're on time.

Travel abroad? Heck, I can see it better on high DEF TV without; smells, Montezuma's revenge and hurrying about, and if I want to go somewhere they don't like Americans, I can go to a major city here.

Watching lumber capital logyard the girls work very hard. I'm reminded of a couple things; Deb's joking? remark about being a 'good little worker bee', and in my own limited experience observation that women are 'all business' and it's a good thing because they have the most important job in the world... and justifiably - girls also 'just wanna have fun.'

LGBTQLMN Opie, do they want to run their lives or ours & your children's .

There's a myriad of people competing for our votes, dollars and attention, as we also competing for such things in a sense. When we expend our; dollars, votes or attention foolishly, it's unfortunate and often the result of listening to bad advice or fraudulent advertising. When that happens are "low info" peeps more affected? I don't know - maybe not, because they seem to receive benefits galore, as are

the very rich. It's those in the middle, who work and pay taxes who're stretched the most. #Are we in the middle dummies and fools, or charitable? #Or some combination thereof.

Regarding violence, ineptitude and stupidity among the races, it is perhaps a dead heat... well almost.. more likely there are just variations, and perhaps degrees.

I neither love or hate guns, I hate or love what they can do ie: kill or protect life and liberty. Any person or government can be tyrannical, especially if they have guns and government in particular outguns us. If you disarm honest peeps they'll be even more at the mercy of criminals and politicians.

All for learning from everyone but the Africanization of America appears to be intensifying all the time... hmm. What dynasty was it?

They say history repeats or rhymes so most people look back 100 or 200 years but not 10,000 as we should.

The three great monotheistic religions all claim to have God's mandate to spread their message - aka rule the world although they may deny it. Therein lies the rub because they're not on the same side and apparently some of their members will stop at nothing to achieve said goal.

"Equality"... it's important and essential but it means different things to different peeps. Sometimes it may be good to move far away...

Are there other blue planets out there?

"The problem isn't greed as much as it's envy... we look around at other people and if they have more than us we have a problem... it's always been a big problem. That's why the law of Moses said you couldn't envy your neighbors; wife, land or even their donkey. The old Jews, were having trouble with envy, we're still having it and we'll always have it as long as there're human beings"... Charlie Munger (Paraphrased.)

"All this money printing, the Japanese, for example, which is a very admiral civilization, have overdone it, and it has resulted in stasis - not much improvement in the standard of living in the last 25 years, and I hope to God the United States has a similar happy outcome but I think the Japanese are better suited to stasis than we are. They are a duty filled civilization, they just suck it in. In our country, we have terrible tensions, it's way harder to run a country which is not mono-ethnic like Japan."... Charlie Munger (Paraphrased.)

"Every child deserves a quality education, medical care, food, clothing, heat, air conditioning, Wi-Fi, etc. the activist says, but it's not other members of societies responsibility to provide it. If you are on public assistance, having children you can't afford you should be sent to camp. Society should do an honest cost benefit analysis of the pros and cons of providing assistance, not one engineered by activists to produce an outcome favorable to their agenda.

Live from New York it's good morning America on ABC as I listen to the headlines, it makes me think of what Mark Twain said about. "If you don't hear the news you're uninformed, if you do hear it you're misinformed." I think he had a lot more insight journalists today and I think George Washington and his buddies were a lot more on the ball than Biden and his. Meanwhile, the Chinese balloon moves over Montana. "We know it's a Surveillance balloon"... said the administration spokesman.

Peoples develop reps as do peeps. Don't say ignore it- forgive, don't forget... et vous???

Babies and birds are a lot alike and unlike grown-ups they can't tell you what to do, overpower you or hire an attorney so they're trainable. The birds don't like to feed when we're watching but that's the whole idea. I don't feed them just for their good looks or maybe I do. # Unlike babies, they should earn their keep.

If you're twice as frugal, you can enjoy a similar lifestyle for half the price

New shoes and clothes are nice but the one year-old seems more interested in dropping things out the kitchen window and getting into the garbage. Sugar and spice and everything nice is great but he

A big fake smile is the lowest common denominator, not buying it...

Like everyone, they might 'like you', long as you go long with their narrative. If not look out fast twitch means even more alley violence and lack of self-control. IMO bell curves apply, meaning some of us might be able to 'get along.'

Driving is another one- fast twitch may result in a different style of driving, which also can be charted ...Peeps aren't monolithic in this regard.

The open door chime on the fridge is annoying but can be useful...trying to ignore it when it s'not.

There are great female songwriters but even when I understand I can't always relate to their musings

and music... We're still apples and oranges .

The old songs and videos that bring tears like As Tears Go By, by Marianne Faithfull or Taylor Swift with the stones in 2013, or Don't Cry for Me, Argentina - Karen Carpenter's version. It's partly the beauty of the songs and the latter because dad liked it... do you understand? #Did mom secretly like Elvis?

When they speed up, I have to slow down... I'm injury prone .

Do what you want but don't wanna rush no more...specially through airports.

I'm low on alacrity and don't wanna be a good little worker bee. Be right there sure. my God it's hard to slow down. We are so conditioned to hurry. The peer pressure is enormous.

Assistant to the prime miniature ...that's me .

Just wondering about peeps who get 4.0s. Depending on what subject it's in, does it mean they've mastered the material and been indoctrinated more than someone who barely passed? In that case unless it's true science and technology I might prefer the slacker.

Of course, we need experts on things like keeping planes in the air and curing cancer but when if you were telling us what our value should be, and what we should think.

When I say that, "be fruitful and multiply", jives, with Mother nature's message I speak only for myself.

As parents get older treat them gently lest they lose confidence. As our bod's and mem's falter don't jeer or criticize, encourage us instead, lest we depress and surrender.

Watching Alexander Mercouris, a pro Russian analyst, I state categorically, I am not pro Russian, nor am I pro Ukrainian. I am pro American Declaration of Independence, US Constitution and Bill of Rights, and believe we're under occupation as is Ukraine, and suffer under the boot of criminal regimes... God help us.

Maybe it's His will that the battle takes place in Ukraine instead of Poland, a NATO country ...

No one has the right to push you to your limits except yourself all the others have the means right down to a baby.

The Prime Miniature keeps us on our toes and while, grandma showers, I watch him finish his breakfast. We make a mess out of our; nut butter, pouch and waffle, and open the window to hear the rain and birds on this January morn. It's a reminder that we like "rags and tags and puppy dog tails." Soon the fog will lift and grandma will take baby to Bea and Bill's.

Flip the switch and light the way

Maybe it was cause he was an engineer, but Dad was precise even washing dishes when we were kids. Maybe that's how he was taught to wash Lab-wear. One thing that sticks out in my mind is that he turned things upside down so they'd drain properly. I'm always amazed when I see otherwise, bright

peeps neglect that. Those last few years, he wasn't nearly as precise and I remember 'the fridge and stove'... maybe t'was cause his eyesight was weak.

I love talking to the baby and to some extent the dog because they're good listeners

"How come the grandpa so wicked", I tell the dog and he wags his tail. Don't think wicked's so bad -

Elon musk might end up being king of a good chunk of Mars. I'll be happy to be co-owner of 54 acres but I imagine we'll both have trouble with others.

Regarding religion, investments, etc. not blurting anything out... per what a guy once told me

Still interested in what might've been God's first command aka "be fruitful and multiply and fill the earth", not to be mistaken with the God's First Commandment via Moses.

"Looking for the bridge", and "for clues at the scene of the crime."

Can study the Bible til Kingdom come and add or agree with various interpretations of prophecy and the "future." A thing though... history tends to rhyme.

"Global elites meet at WEF in Davos"... Bloomberg. Is there a dif tweek elites and elitists? The latter especially stinks of self-proclamation by the criminals mouthpiece.

"Oh, it's next week I'm greeting at church not today", she said. "Wonder if we should turn the water

off when we go to Florida?", he thought (example of our different thought processes .)

Classic chicken and egg dilemma - are we assholes because they badger, or do they badger because

we're assholes? #Nature, duty and dereliction thereof...tis no picnic but worth the effort .

Maybe should say, "wonder what they're up to?", stead of, "they're up to no good" ... cause how would I know?

Think learned another reason women want to have sex into their 60s. Our ladies were talking bout

Pap smears... an inactive, older woman's as "difficult", as a virgin's .

Learned many things from my gal including that everything I don't like about her and she doesn't like about me would "crop up", even if we were with someone else...

Something I learned elsewhere is peeps go to war with the army they have - even against those they love, and they will do anything to get their way. Some of these things may take decades to get over if ever, and there are words, that should never be spoken, because they may never be forgotten. The most poignant example I can think of would be to threaten to take a child away and move to another

state, but even that can be forgiven, if not forgotten, especially if it's not gone through with... "I will go down with this ship"... Dido

Thinking bout mom and dad this morning brought me to tears. Did they get out of life what they 'wanted'.... did their dreams come true- even remotely?

The mantra I heard this morning was, "reuse, repurpose, recycle"... Apparently in that order

#Nice

Watching the Larson sisters on Swaggart. whispered "pretty" and she heard me. It went no further, but if I ever say that to a woman it would be treason, but how can't I look?

#As she put on her make up .

I believe to being kind to animals, but I will not suffer a rat in our house .

As I hand her the extension cord, there's a slight delay. I'm reminded that we "hand-off" differently...it's not her fault or mine that we drop things.

Because it's important I'll say it again. - wish you well, but not that all your dreams come true unless they're truly good for everyone not just you.

"Media synchronization"... that's a new term to me but no matter what it's called, it's been round for as long as moguls belonging to the same Cabals have owned our sources of information.

Funny thing is everybody's got a dog in the fight, an ax to grind and someone telling you which is which.

They're talking about a series they're watching, which is very popular on one of the streaming service. One of the opening scenes is testicles filling the screen and a man licking another guy's ass. "Other than that", they said it's an interesting exciting series. Should such images be allowed on anything other than X-rated videos? The producers might say the cats been out of the bag on such imagery for decades so mind your own business but I disrespectfully disagree. Is it wrong to think they want us and our children to have such images implanted forever in our brains with no hope of forgetting them? Sorry Elon I don't NeuroLink, to erase it. They want to mainstream sexual behavior that many believe is degenerate and unnatural, but they might think otherwise, and their calculated efforts to pollute our minds continue unabated. Their fellow travelers in the scientific, academic community will vouch for them, which means nada as it's political science at its worst.

On a different note, war crimes? Isn't war a crime anyway? What if someone gave one and nobody came? Different is crossed out because it's the same Cabals; financing, stoking and promoting war through the main stream media and any other avenues they can get their hands on...which they have.

I am not pro Russian by any stretch of the imagination. I am pro what George Washington said about avoiding foreign entanglements, especially in Europe, which Ukraine is, but I am opposed to our occupied government, which apparently has it sights on the entire world... God, help us.

The commercial for the animated Star Trek says, "dream of a place where we all can be accepted, ready to take your orders, captain"... I missed the rest, but think I got the gist of it. Acceptance is one thing, but accepting that those who have diametrically opposed values should be able to impose them on us is something else aka unacceptable. IMO Society should protect everyone from violence not from criticism.

#Let's "walk" in opposite directions.

Not sure I believe every jot and tittle's true and divine but I believe it's inspired, and I think Jesus Christ probably rose from the grave thanks to Divine and hopefully not just "supernatural" intervention... because He is who I pray to, for help getting through to God for divine guidance and assistance.

They remind that I've been in the tub an hour and a half which I dispute...only an hour and 15

. Think bout asking, "don't you have anything better to do?", then remember anything

else would be dereliction of duty. #Maybe there's a reason

As I see the pretty faces and hear the beautiful voices on everything from Bloomberg to the Doctor Who commercial. Think to myself, these are tools and boneheads whether they know it or not and if they know it, they should do something about it... as should I.

Been using a reacher grabber for almost 2 years, and finally realized that by rotating the claw, it won't

The first law of thermodynamics is a version of the law of conservation of energy

In natural systems, both energy and matter are conserved within a system. This means that energy and matter can change forms but cannot be created or destroyed. Energy and matter are often cycled within a system, and different forms of matter and energy are able to interact. <https://manoa.hawaii.edu/exploringourfluidearth/standards-alignment/next-generation-science-standards-ngss/crosscutting-concepts/energy-and-matter>

The turn off all an inexorable part of life, for many people, death — or at least the thought of ceasing to exist forever — can be a scary thing. The disturbing things that happen to the body during decomposition — the process by which cells and tissues begin to break down post mortem — are bad enough.

But what if instead of looking at death from a biological perspective, we examine it from a physics standpoint? More specifically, let's look at how our energy is redistributed after we die.

<https://futurism.com/the-physics-of-death>

Sometimes you need to hold your breath. Sometimes you “just” need an air pocket... good luck

Driving over the bridge, thinking bout life after death. How many eons have humans or pre-humans lived on this planet, looked at the same sky and it's beauty... well almost the same sky they might not have seen contrails.

Hate to say it but we judge each other all the time. Trick is not to get caught up in it.

Re: activist of any ilk or religion, my proach is void them like the plague, which dovetails with only sharing sec's with the Man upstairs.

Don't believe verbatim what the screen writers or their ancestors wrote... why wouldst one?

And not believing verbatim whats written bout; religion, Geopolitics and science, which seems like so much poly-pseudo-sci espoused for profit and promotion. The “truth”, at best tends to fall somewhere in between.

Regarding the baby, course I hug and want to rub his head and hold his hand but get the feeling he probably doesn't want most of it. Will let him initiate the latter but don't know how a babe can.

Looked up alacrity cause I've been saying it bout my wife, and found it fits aka,"brisk and cheerful readiness." US Grant used it for generals who did a good job.

Out of curiosity, I wonder how many LGBTQ's have actually been sexually assaulted or abused and don't admit or remember it? Might that be the reason some are LGBTQ?
That may dovetail with women who've been sexually assaulted or abused by men, and suffer in silence.

The PTB, has Ukraine over a barrel because they know Ukrainians want to maintain sovereignty. With that knowledge, the PTB can use Ukrainians to fight Russia for the PTB's benefit seemingly with no downside to the PTB. If Ukraine wins, the PTB wins too, if Ukraine loses, the PTB will move on to another domino. Their think tanks and media will spin the narrative in their favor and their fiat will increase thanks to decades of corporate raiding resulting in Blackrock en all's majority ownership of the MIC.

Unfortunately, whoever said, that "power comes from the barrel of a gun" was right. We should refuse to disarm because of that. We should also remember that it's a fools errand to turn the law over to the majority because they have more gun barrels and more votes. Just as it's wrong to let a baby who you can easily overpower, run you ragged. It's equally stupid to let those who are individually "weaker", rule our lives because they out number and out vote us. Those with police or military powers should remember that when they are told to arrest, or fight those who are outnumbered but minding their own business.

Regarding sons of darkness, etc. someone can be a son of a gun one day and an angel and most of us are.

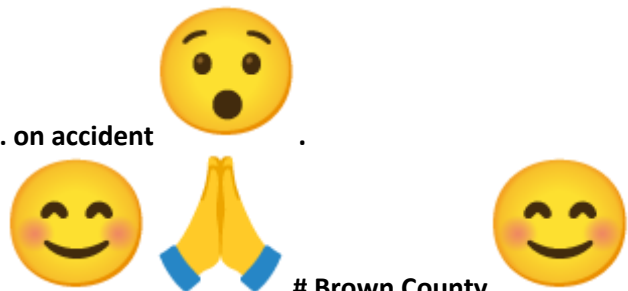

Don't blab... just answer the questions people ask you and do it in complete sentences.

Looking at the over priced Vic firth Ralph somebody drumsticks at Goodwill I thought for more than a moment about switching the price tags but I didn't... was it because I wanted to be honest or thought I'd get caught?

Funny, how just as we reach the point in life where we begin to “marvel” at what we can do, those

When I start thinking that cook gates, etc. should have this or that done to them because their products suck I realize that at least half the problem is my lack of understanding how to use the products but that shouldn't get them off the hook entirely.

I keep saying, my wife is wonderfully adapted to verbally spar and that's probably true or maybe I'm

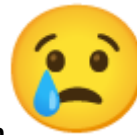

just ill adapted .

Will Ukraine be Russia's Vietnam, America's... or something even worse? What would GW do

Oh, that's right he's been discredited. Thirty million Ukrainians can go a long way, and unlike the South Vietnamese, Ukrainians, “want” to fight. #Easy come, easy go.

I've started some healthy living things. Question is have I started in time and will I stick with them?

As the average person struggles to pay the bills, and cheats a little to make it through the day the uber rich say they're bad peeps. The rich benefit from and follow the rules, they made. Said rules, involve; taxes, banking and finance, from which they alone benefit yet they don't trust average Joe to work un-surveilled lest they steal something.

Meanwhile, hedge fund managers and clients make billions of dollars while; Dick, Jane and Sally declare medical bankruptcy.

"Be kind whenever possible, it is always possible"... Dalai Lama

Listened to NPR's story about Rikers island... focusing on gang members and the mentality that, "there's not much forward thinking about what they're going to do after prison." Maybe they've always had gangs there, but they said it started with Puerto Ricans, then the Bloods, and God knows who else now.

It reminds me about demographics, and homogeneous populations who are more likely to have "shared values." Despite what the "experts", might say, me thinks that; being on the same wavelength and behaving a bit more like each other probably leads to slightly more peaceful coexistence.

In a world intent on; prescribed diversity, attempts to engineer relationships and forced integration (yes I said that), maybe the demographics won't just "neatly work out", after all.

There's that old Bible thing about a "rod of iron" coming. There other things that comes to mind like a renewal of "discredited", forms of punishment/corrections like chain gangs and deportations to prison, colonies or countries of origin.

This because humane treatment and compassion, which rightfully came into practice more than 100 years ago, have been abused by a sizable portion of law breakers. Just as too many able-bodied, peeps, have abused; the welfare system, aid to dependent families, disability, etc., lawbreakers, have abused societies, ongoing trend to give them a break.

Western civilization is characterized an existing native population of bilkers and shirkers, and it has also attracted a similar immigrant population, which isn't to say that all immigrants are like that. In a

more homogeneous society, the majority agree on many things and are less likely based on their ethnicity, color, creed or ancestors travails to cry victim, riot and demand; compensation, retribution, or revenge on people who had nothing to do with past wrongs.

In a more homogeneous society, people can find greater agreement on the rules because they don't have the excuse that because of; this, that or the other they deserve special treatment.

Japan is an example of a relatively, even highly homogeneous society where violence is far less than in America for example. "In 2020, number of homicides for Japan was 318", this, according to Knoema, an Eldridge business, which calls itself, "the premier data platform." In 2021 Indianapolis alone had 271 murders.

I don't think the Japanese populace agrees on everything and of course they have dissent, but they also have unity. Japan, in my opinion, also doesn't get everything right, but neither did our founding fathers who were also homogeneous and had a more civil society than we do today.

Not saying disaffected people don't have some valid points, but there has always been corruption in the legal and penal system, including the ones they came from. Said problems in America should be urgently dealt with. If, and when they're rectified, citizens will be protected and anti-American activists will have less to moan about.

Don't know exactly who Jesus was and don't believe his "official" biography because they're generally by the same peeps who burned the "unofficial" ones. Not to mention the Romans, who set up His "church" also crucified Him... apparently at the behest of others... were the Romans the first to hijack his message and legacy?

Genitalia now that's an autological word (described itself), crazy in a good way.

Keep hearing about how great it is that AI will increasingly make decisions for us. It sounds very authoritarian, Chinese and undemocratic... a.k.a. just what the occupation and uncle Joe's handlers want. IMO, artificial intelligence relates to humans too. There are artificially intelligent "degreed", peeps, who've labored long and hard to memorize what they're supposed to... aka ivory tower polo-SCI.

People are always trying to become more God like and AI is one tool at their disposal. Unfortunately, the Godly qualities peeps seek are not His best ones. AI is ultimately useless in this quest, as God is infinitely superior to humans... not just a little above them like the angels.

"Instead of walking towards a bigger war (in Ukraine) with its eyes closed, the world is walking towards it with its eyes wide-open"... Secretary-General of the United Nations, paraphrased.

My excuse, a.k.a. reason for some of these extreme views is that I'm reacting to the news. Are usually simmer down a bit.

I'm a sinner and I missed the mark by a mile with regrets Oh yeah wow well that's good.

So, “on average”, who are “better people”, men or women... I would say that's like comparing apples to oranges.

The devil's certainly in the details of every day life, as in all the difficulties, conundrums in pain, we endure. That doesn't mean he or it's not present elsewhere, inflicting some leaders attacking the rest, spiritually, and otherwise. Just as there may be powers and principalities in a dimension we may not see fighting for good and evil.

Who will survive in underground bunkers if the nukes fly? The; Bidens, Gates, Clintons and billionaires... “good luck.”

Maybe we'll meet again in a million years, which'll seem like a second

I believe in variation, because it occurs - not in diversity because lately it's prescribed.

Noticing the gallon Ziploc bag on the counter above the garbage can I decide to salvage it. If these things last hundreds of years in landfills, certainly I can get several uses out of it - or at least two.

Sometimes I have to wonder where my wife gets her knowledge of the world from such as, “any woman you're with will want the same things I want and you'll have the same problems you have with me”, she once told me - or something to that effect. It was simple and profound... do the gals talk or read about such things, or instinctively know them?

Certainly more profound than my profundannuities like, “why hurry I'm just liviing from snack to

snack anyway.” #Not in it to be spent like dollars.

Everything from; Google to rock ‘n’ roll, to the self scan and the chiming fridge tells us to hurry, even if it’s hurry up and wait in the parking lot for a spot or somewhere else for something else its designed to make them richer at your expense... the occupation.

Since were only two days away from our month-long trip to Florida, my back’s tensing up... it seems to

realize somethings going on and may prefer to stay home .

As we load the car with suitcases, etc. I’ve got to slow down cause if I tweak my back, I’m a liability not an asset.

Getting back to honorable jobs like picking up garbage, digging holes or washing dishes - all involve thinking, like how to do it better, how to get hard stuff off a plate etc. etc. it’s not rocket science but rocket science isn’t either.

Do we truly come up with anything on our own, or does it come from seeds - planted, or blown’ in the wind.

Following the bunny tracks down the driveway to the mailbox I walk on the grass. It’s softer if I fall and less slippery in the first place.

When AI fails and it frequently does, it's often my fault... rest of the time it's just plain stupid

Apparently it will be in beta forever.

It works better when we cooperate best we can. Don’t be poodles, work together and draw from each

others strengths. #ghost to war with the army ye hast.

For what it's worth after all, we have greater upper body strength

Every time I think that we are different from some other demographic things happen that prove me wrong,,, we're more alike than I thought.

Watched the YouTube on the 97-year-old woman's seven rules for livin that long. Very impressive but don't think I'll do them nor spect to live that long - though great-grandma did and cording to Mom she

sat in a rocker on the porch .

Not that it matters, but I think we're occupied by the Sodanez with the Chinese hot on their heels

Looked up some of Summit Junior High students, including the bullies, trying to find obituaries etc. Found; Wilbur China's obit. (a nice guy), a bully (Sal Errante) mentioned in his grandma's obit, and a second bully Tim Bardes mentioned in his sister's obit as having died before her. I wondered why those two, along with; Tommy Kimbrough, Anthony Zachary and a few others were so "hateful" - and what might I do if I came across them now... as opposed to what I'd "like to do?" #is bullying another,

"in the eyes of the beholder" thing?

The June Bug not the Mayflower II.

Nigeria's election irregularities are allegedly massive this go round? Including gunmen stealing ballots boxes. Why should I believe that Philadelphia and Atlanta's were honest?

The voting rights bill is apparently under attack, which reminds me that a bad guy once said, "power comes from the barrel of a gun." Unfortunately he was mostly right, even in a fair election, the results are foisted on the losers in just such a manner.

Ironic how NPR boldly calls itself be "public radio" when it's so biased in favor of the Dems.

Observing the behavior of drivers on the highway is a microcosm of human behavior.

Regarding climate change, has the die been cast and even if it has, does that mean we should do nothing?

Got tired of Pink Floyd though I love Dark Side of the Moon, and cued Alison Krauss singing, "I don't know who holds tomorrow", she sang the first line as I passed a dead possum on the road and it made me think - that's for darn sure.

Yes Ward's house I think to myself it's been along time since I've seen him but I spend too much time when I go there. He talks a lot about what he's doing.

I wonder if he's lonely I might be completely off-base he might have a big loving family, but if he is lonely, is it my responsibility to stop by and buy some eggs and honey and share I don't think so. I think our responsibility is to treat people well when we run into them and don't necessarily have to go out of our way for everyone.

Probably nothing wrong with doing that either

It's me it reminds me of driving you don't have to be Mr. good guy all the time if that means letting people go when they shouldn't because all that does is disrupt the flow

Our work, revealed a core of 1318 companies with interlocking ownerships. Each of the 1318 had ties to two or more other companies, and on average they were connected to 20. What's more, although they represented 20 per cent of global operating revenues, the 1318 appeared to collectively own through their shares the majority of the world's large blue chip and manufacturing firms -- the "real" economy -- representing a further 60 per cent of global revenues.

When the team further untangled the web of ownership, it found much of it tracked back to a "super-entity" of 147 even more tightly knit companies -- all of their ownership was held by other members of the super-entity -- that controlled 40 per cent of the total wealth in the network. "In effect, less than 1 per cent of the companies were able to control 40 per cent of the entire network," says Glattfelder.

Most were financial institutions. The top 20 included Barclays Bank, JPMorgan Chase & Co, and The Goldman Sachs Group.

ONE WORLD LEADER

The British Historian Arnold Toynbee (1889-1975) said, "The nations are ready to give the kingdoms of the world to any one man who will offer us a solution to our world's problems."

The first president of the United Nations General Assembly, Paul-Henri Spaak (1899-1972), who was also a prime minister of Belgium and one of the early planners of the European Common Market, as well as a secretary-general of NATO, affirmed, "We do not want another committee, we have too many already. What we want is a man of sufficient stature to hold the allegiance of all the people and to lift us up out of the economic morass into which we are sinking. Send us such a man, and whether he be God or devil, we will receive him."

Thank you, Lord that it missed my funny bone... just hit some

nearby soft tissue  .

Bible prophecy. We know the details just not the exact details, they remain murky... at least to me.

Just as there may be more choices than Lewis states, might there be other nuances, aka in religionists “understanding” of God’s plan etc. “Now I am become Death, the destroyer of worlds” ... Robert Oppenheimer (Hindu scripture)...aka Is nuking okay “sometimes?”

Watched Ex Machina and saw Valldal, Norway in HD, it’s beautiful but don’t need to go and touch those hills ... probably just get a rash, and after a long flight, that’s all I’d need. Same with the Pyramids of Giza... went there, rode a camel touched a big stone and was whisked away so the next tourist could do the same.

Looking at the crucifix I admire its artistry and congratulate myself on successfully reproducing it in pewter... but I should be focusing on and appreciating His sacrifice.

On Bloomberg; Lacroix’s voice is like a reassuring mother, Kean is Gramps, Abramowitz the voice of reason, while Ferro and Leinz are trendy.

Truly hate it, but highest *bitter* and “spoils of war” come to mind... why? #Necessity, not your fault and the army you have?

Seen many women formidable as any man... usually in their own way.

Unrelated to the previous. While calling foul - you commit one after another... won't get off the hook forever.

Like Jade over Emerald, but wouldn't kicker for crackers
#Not really red.

Apparently, the next arms races will be; artificial intelligence, ethnically targeted bio weapons, and hypersonic missiles ... well that really sucks!!!

Not sure Uncle was right, but me thinks one can have great intelligence without wisdom or common sense, and if he was right, such may also have no soul.
#Also said Egyptian's are half black but DNA contradicted that.

There sure seem to be a lot of; cliques, cabals and cohorts vying for power... I hope God puts the bad ones in their place.

“And now these three remain: faith, hope and love. But the greatest of these is love” ... 1 Corinthians 13:13

Faith, hope and love... may they be true.
